

Chamber-Link 商会链 Honorary Partnership Support Program

全球商会数字化趋势 (Global Chamber Digitalization Trends)

Conclusion:

The World Lin Chamber of Commerce must take the lead in establishing a private digital platform to build an interconnected technological ecosystem.

1. Platform Positioning (Starting From 2025)

Chamber-Link 商会链 is positioned as the official digital platform led by the **World Lin Chamber of Commerce**, dedicated to promoting digitalization, technological advancement, and commercial connectivity across all Lin chambers globally.

The platform will **no longer open to the public or external chambers** at this stage. Instead, it will focus entirely on consolidating internal Lin chambers and business networks to create a private digital ecosystem for Lin entrepreneurs.
